

REMARKS/ARGUMENTS

The specification has been amended at column 2, lines 16-35, as noted showing the amendments relative to the paragraph as it appears in the patent. The substance of these amendments was earlier submitted but the final amendment was not entered because it was accidentally not made in compliance with 37 CFR 173(d) showing the changes relative to the original specification. Thus, Applicants believe the current amendment finds support in the application for the reasons noted in previous responses and is now compliant with 37 CFR 173(d).

A new declaration is being submitted with this response.

Applicants request that this amendment be entered and the the pending reissue application be allowed.

Respectfully submitted,

A handwritten signature in black ink, reading "Susan Moeller Zerull". The signature is fluid and cursive, with the first name "Susan" and last name "Zerull" being clearly legible.
